

# A.S.A Music Player

Angela K., Stephanie O., Angela S.

# Music Player: Goals + Roadmap

---

- What are the essential features of a music player?
- What are our goals, and who is it for?
- How did we implement our goals?
- What were our challenges?

# Music Player Future

-Firebase Database

-Encrypted Login

-Song Shuffle

The image shows a web application interface for a music player. The left panel displays a form for adding a new song, with fields for Title, Artist, Path, and Num. The right panel shows the Realtime Database view, displaying a list of songs stored in the database.

**Form Fields:**

- Title:
- Artist:
- Path:
- Num:

**Database View:**

Realtime Database
